

Hallo students of 10c,

now I'm going to send you possible solutions for your last work. Not everything has to be exactly the same. You just orientate if you **hit the nail on the head** or if you **lost the thread**.

Please, tell me immediately if there were great problems with literature.

Today let us start a **new topic**, something that is so close to your own lives: „**ways of communication in our digital world**“.

Do exercises 1 a (written!) and 2 a-c > of course, on your own (!)

In 2 b) choose just one topic of your list and concentrate on it.

Then turn to your workbooks and do p. 17, nr. 1 and 2.

All together don't forget to learn the new words. Copy lists or use your workbooks.

Kind regards, yours Mrs Leschniewski.
