

Dear students of 10c,

today I give you the chance to complete the tasks of the last lesson and work at new vocabulary. For doing it properly go the following steps:

1. Read the text on p.38 in your English books. For training your LISTENING ABILITIES, use the audio file you can find with the link www.cornelsen.de/webcodes and fill in the number ☆ star-12 ☆
2. Then work at the vocab list in your workbooks at pages 18 +19. Here you can follow the link www.cornelsen.de/webcodes again for comparison and fill in starwb-03. (Given on the side above the list.)

Having done everything, check all your papers you had to prepare during our homeschooling time!

Do not come to school without your solutions. I want to find out how you got along with everything, particularly with literature. That will be our topic in the "TESTPAPER" as you know.

The day of our test will probably be in ca two - three weeks. We are going to plan that together, of course. Prepare questions if there was trouble. But, honestly speaking, I do not expect any questions, because noone sent me any mail expressing his or her difficulties.

So, do everything as well as you can. And stay healthy!! 😊

Yours, Mrs Leschniewski.
