

Good morning!

James Clarke is the name of the Liverpool hero. Some other heroes are well known because of what they did. That's why we see a „story behind the name“. Let's take our homework of last time:

SB, S. 62, Step1- Step 4

### I. Lösung

Step1: ein Foto von der Mozartstraße und ein Foto von dem Schild mit dem Straßennamen.

Step 2:

About the place	About the person	When it was named after the person	Reasons to remember the person
a street in the city, next to the hospital, lots of cars park in the street. It's a dead-end street	Wolfgang Amadeus Mozart was a musician and a composer of the classic music, 1756-1791 wrote the opera „the Magic Flute“	1952	he was a great musician. We still listen to his music today. He has written a lot of pieces. An important part of our musical culture

Step 3: In Germany, lots of streets are named after people. Not far from my house is a street called Mozartstraße, which I think is a great name for a street.

Mozartstraße is in the southern part of the city, next to the hospital. It was named after Wolfgang Amadeus Mozart in 1952.

Wolfgang Amadeus Mozart is a famous classical composer who was born in Salzburg in 1756 and died in Vienna in 1791. He wrote many famous pieces and he was known as a child genius because he could play the piano and the violin extremely well at a very young age. One of his most famous operas is „The Magic Flute“.

It is important to remember people like Mozart, because he influenced the music we listen to today a lot and he is a great inspiration.
